## Supporting documentation

A site plan must accompany this application. The site plan must be legible, appropriately scaled and dimensioned indicating the positioning of the proposed development on the site. The Bushfire Attack Level will be determined based on land slope, vegetation category and distance or the proposed development to all vegetation hazards. It is essential the information contained on the site plan is sufficiently detailed to enable this level of assessment to occur.

## Applicants declaration

I have provided a dimensioned site plan to scale that shows:

- all existing and proposed structures on site including setbacks to boundaries
- the location and distance to vegetation
- existing and proposed ground levels
- or development on rural zoned land, shows the associated access way from the public road to the proposed development
