# DELIVERY PROGRAM PROGRESS REPORT

1 July 2023 – 30 June 2024

### **Acknowledgement of Country**

We acknowledge the traditional custodians of the land on which we work and live, the Gathang-speaking people and pay our respects to all Aboriginal and Torres Strait Islander people who now reside in the MidCoast Council area. We extend our respect to Elders past and present, and to all future cultural-knowledge holders.

## About this report

The Delivery Program Progress Report 1 July 2023 – 30 June 2024 is a report to the elected representatives and our community detailing Council's progress towards meeting the goals set out in the Delivery Program. The report provides an update on the performance of each of our key services over the last twelve months, as well as a status update on the major projects from the Delivery Program 2022-2026 and Operational Plan 2023-24. Measuring our performance allows us to evaluate what we are doing and how it is achieving our community's vision for the future, as captured in the Community Strategic Plan.

Council regularly tracks and monitors the Delivery Program and Operational Plan and reports to the community on progress through six-monthly Progress Reports such as this, as well as in our Annual Report. Council also tracks progress towards the Community Strategic Plan through the State of the MidCoast Report.

The Delivery Program is available on Council's website at: [www.midcoast.nsw.gov.au/DPOP](http://www.midcoast.nsw.gov.au/DPOP)

# Integrated Planning and Reporting (IP&R)

This report is prepared in accordance with the Integrated Planning and Reporting Framework and legislative requirements under the *Local Government Act 1993* where Council is required to report on progress against its Delivery Program at least every six months.

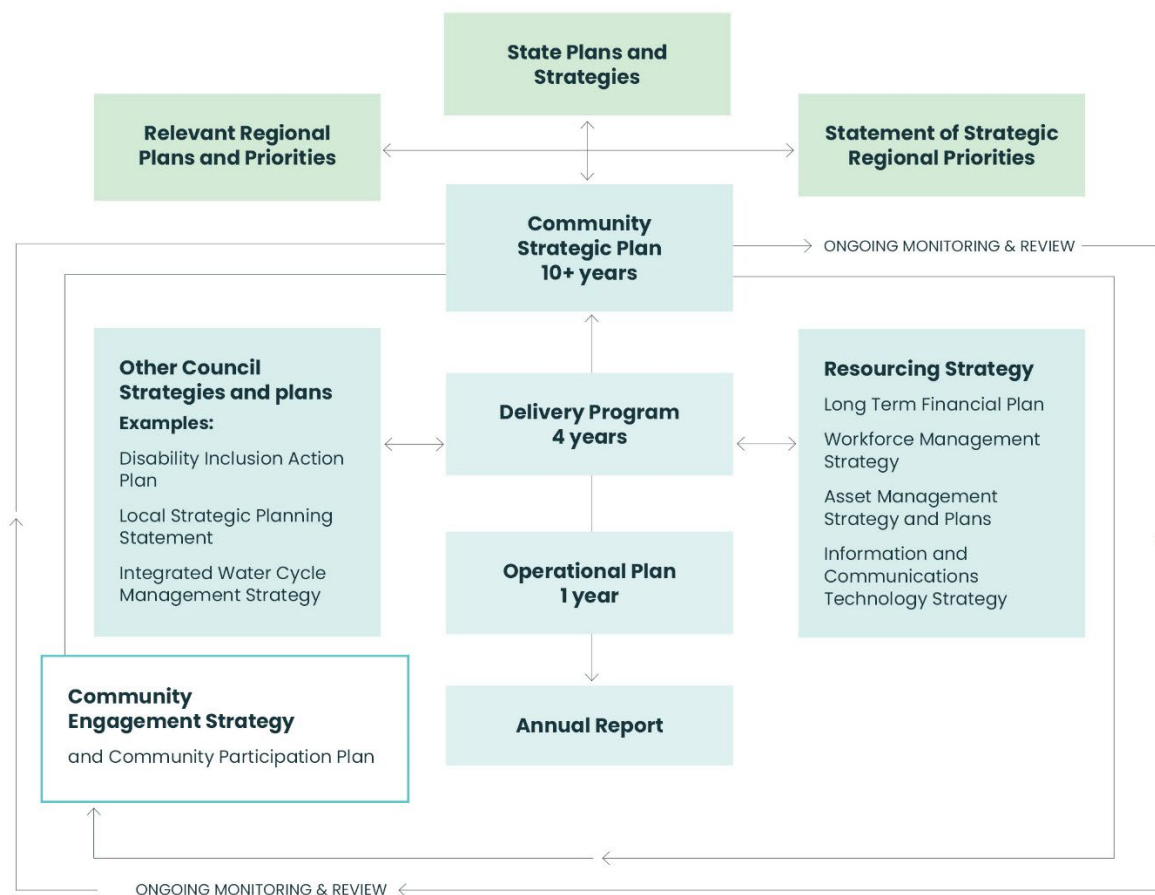

The Integrated Planning and Reporting Framework begins with the community's, not councils, aspirations for a period of at least 10 years. It includes a suite of integrated plans that set out a vision and goals with strategic actions to achieve them. It involves a reporting structure to communicate progress to Council and the community as well as a structured timeline for review to ensure the goals and actions are still relevant.

Council's Integrated Planning and Reporting documents include:

- **Community Strategic Plan** - MidCoast 2032 identifies our community's aspirations and the outcomes they seek for the MidCoast over a 10-year period
- **Delivery Program** - captures Council's priority programs over a four-year period, and the outcomes we will deliver to support the achievement of the Community's Strategic Plan
- **Operational Plan** - a one-year plan detailing the actions Council will undertake within a set budget to progress the outcomes determined in the Delivery Program
- **Resourcing Strategy** - a four-year strategy that identifies Council's available resources and how these are planned to support the Delivery Program (These include the Long Term Financial Plan; Asset Management Strategy, Policy and Plans; Workforce Management Strategy; and Information & Communications Technology Strategy)
- **Annual Report** - provides the community, Councillors and staff with a summary of Council's performance over the previous financial year highlighting Council's achievements in implementing the Delivery Program and Operational Plan. It also includes statutory information required to be published by legislation
- **Delivery Program Progress Report** - prepared every six months and provides Council with an update of our progress towards achieving the goals in the Delivery Program.

The Framework diagram on the next page shows how these plans all fit together.

## Our Community's Vision

The vision describes the kind of place the MidCoast community wants our region to be in the future:

*MidCoast is a place of unique environmental and cultural significance. Our strong community connection, coupled with our innovative development and growing economy, builds the quality of life we value.*

## Our Community Outcomes

The community outcomes are shaped by our community's values. The outcomes are the big picture results that we will keep in sight and focus on achieving.

The Integrated Planning and Reporting Framework requires that a Council's Community Strategic Plan addresses social, environmental, economic and civic leadership issues in an integrated and sustainable way. This is known as the 'quadruple bottom line' principle.

### Community Outcome 1: A resilient and socially connected community

Our diverse communities offer active and social opportunities for everyone; they are safe and are places where we work together with a creative focus acknowledging our rich history and culture.

### Community Outcome 2: An integrated and considered approach to managing our natural and built environments

Our natural environment is protected and enhanced, while we maintain our growing town centres and manage our resources wisely.

### Community Outcome 3: A thriving and strong economy

A strong regional economy that supports business and jobs growth.

### Community Outcome 4: Strong leadership and good governance

Council is focused on being sustainable, well-governed, and delivering the best outcomes for the community.

# How to read this report

1.4.2	Operation, maintenance and breakdown response of sewer network
2.5.2	Construction and renewal of sewer assets
2.5.2	Planning, design and management of sewer assets
2.5.1	Assess impact of development on sewerage network, including providing technical advice and approvals to connect to the sewerage network

## Performance Measures

CSP #	What we want to achieve	Baseline	Target	Jul 23 - Jun 24	Status	Comment
1.4	Test results which comply with EPA licence requirements	95%	≥ 95%	99.50%		Treatment plant performance achieves target. There were only a few non-compliance issues, mainly due to algae growth.
1.4	Number of sewer network spills/overflows	88	< 88	97		Increased number of sewer overflows primarily due to extended periods of wet weather experienced during the year. A lower proportion of overflows were due to asset condition or maintenance issues.
1.4	Proportion of sewer assets with condition class rating of one or two	46.5%	> 46.5%	60.70%		Target achieved and result has continued to increase over the last six months due to renewals undertaken during 2024 and revised asset condition data.
1.4	Treated effluent which is recycled annually	17.4%	5-30% <sup>2</sup>	12.80%		Reduced recycled water usage in 2023-24 is a result of reduced opportunities due extended periods of wet weather.

## Major Project Activities (Operational Plan) 2023-24

CSP #	Project Name	Activity	Performance Measure/s	Target	Status	Comment
2.4.1	Integrated Water Cycle Management Strategy (IWCM)	Implement actions identified in the adopted IWCM	Delivery of recommended strategic operational programs	June 2024		Inflow & Infiltration Reduction Program continued as per Our Water Our Future 2050 implementation plan.
1.4.2	Inflow & Infiltration Reduction Program	Investigate target sewer catchments and rectify Council issues	Reduced wet weather flows in target sewer catchments	June 2024		Targeted sewer catchments were located in Taree, Cundletown and Harrington. There has been reductions in instances of wet weather sewer overflows in all targeted sewer catchments.

<sup>2</sup> The amount of treated effluent that is recycled is dependent on annual rainfalls in the region – e.g. 5% in a very wet year, and up to 30% in a very dry year

1.4.2 2.5.2	Sewer Asset Renewals Program	Deliver sewer asset renewals as per program	Deliver renewals as per the program	June 2024		Programmed sewer asset renewals have been delivered as reported monthly to Council.
2.5.2	Upgrade of the Hawks Nest Sewer Treatment Plant	Completion of detailed design and tender for construction	Detailed design completion	June 2024		Detailed design completed. In the process of tendering and report will be submitted to Council in July 2024.
2.5.2	Replacement of existing Gloucester Sewer Treatment Plant	Completion of detailed design	Detailed design completion	June 2024		Project delayed as the regulator has not formally issued the proposed discharge license conditions. The detailed design cannot be finalised without this. Activity carried over to the 2024-25 Delivery Program and Operational Plan.
2.5.2	Upgrade of Taree Sewer Pump Stations One & Six	Completion of detailed design and commence construction	Detailed design completion	June 2024		Detail design with revised timeframes set and tender process for pump station Taree Sewer Pump Station 06 has been completed. Construction has commenced.
1.4.2	New Comboyne Communication Tower	Complete construction	Practical completion achieved	June 2024		Project has been deferred as Council has acquired ownership of the private tower that was proposed to be demolished. Hence, this project is now a low priority. The need to replace it with a new one is deferred. Detailed design of new tower is carried over to the 2024-25 Delivery Program and Operational Plan.

CSP #	Project Name	Activity	Performance Measure/s	Target	Status	Comment
2.5.2	New Wingham Sewer Pump Station Eight and Rising Main (to divert around Wingham Brush area)	Completion of detailed design	Detailed design completion	June 2024		Project has been delayed due to competing priorities in the capital works program and delays dealing with property owner NSW Education Department. This project is intended as a precautionary project to ensure that planning is complete ahead of any urgent need to replace the pipeline. Activity carried over to the 2024-25 Delivery Program and Operational Plan to complete the detailed design.
2.5.2	New Old Bar Sewer Pump Station Eight and rising main	Complete construction	Practical completion achieved	June 2024		Detail design is 90% complete, subject to resolution of land matters and pump station design to suit the proposed future road extension. Inability to obtain voluntary agreement with the landowner/developer has delayed progress. Activity carried over to the 2024-25 Delivery Program and Operational Plan.

## Major Project Activities (Operational Plan) 2023-24

CSP #	Project Name	Activity	Performance Measure/s	Target	Status	Comment
2.2.1	Taree CBD Levee Feasibility Study & Heritage Impact Assessment	Deliver final CBD levee feasibility study and heritage impact assessment	Report finalised	June 2024		Report completed and closeout consultation undertaken in April 2024.
2.2.1	Refurbishment of Croakers Creek Flood Gate	Deliver upgrade works to the Croakers Creek flood gate	Construction works complete	June 2024		Investigative work has highlighted significant environmental constraints to undertaking any work on the flood gate. The flood gate is in a Resilience and Hazards SEPP (State Environmental Planning Policy) mapped coastal wetland with an established mangrove forest upstream of the flood gate. This mangrove forest has established because the flood gate has been leaking salty estuarine water for a significant period. One of the defined outcomes of the SEPP (Coastal Management) 2018 and the Coastal Management Act 2016 is to protect and improve estuarine ecosystems health and would be at odds with the proposed works. Grant has been terminated by the Department of Planning and Environment.

## Performance Measures

CSP #	What we want to achieve	Baseline	Target	Jul 23 - Jun 24	Status	Comment
3.3	Number of serious accidents where road condition is a factor	1	< 1	0		Target has been achieved and there were no serious accidents attributed to road condition.
3.3	Asset renewal ratio for local roads	New	Maintain rating > 1	1.01*		Preliminary result reported.
3.3	Asset renewal ratio for regional roads	New	Maintain rating > 1	4.09*		Result well above target. Preliminary result reported.
3.3	Asset backlog ratio for local roads	New	Decrease rating < 2	7.89*		Result well above target. This result reflects a history of underinvestment in local road renewal projects. It will take a considerable increase in funding over a number of years to meet the target.
3.3	Asset backlog ratio for regional roads	New	Decrease rating < 2	3.76*		Result well above target. This has been reducing, reflecting the outcomes from the \$100M, The Bucketts Way & The Thunderbolts Way programs. These programs are in the final stages, with the results in future years likely to significantly decline
3.3	Asset renewal ratio for bridges	New	No target set	5.18*		Preliminary result reported.
3.3	Asset backlog ratio for bridges	New	Decrease rating < 2	1.41*		Backlog ratio is well below the target.

*\* Ratios have been calculated on initial project data for the purpose of this report and may vary from the ratios presented in the audited financial statements.*
